SUMMARY

Software Developer with experience in full-stack web development using React, TypeScript, Node.js, and MongoDB. Skilled in building responsive web components, collaborating on feature implementation, and optimizing application performance. Proven ability to contribute to bug fixes and learn best practices in a professional environment.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering

Parul University | CGPA: 7.3 | May 2023 – May 2027

Higher Secondary (Class XII)

M.S Memorial Public School | 68% | May 2022

Secondary (Class X)

M.S Memorial Public School | 72.6% | May 2020

PROJECTS

Airbnb Platform

github.com/Adarshrajput0/Airbnb | Jan 2025 – Apr 2025

- Developed a full-stack Airbnb-style rental platform using React, Node.js, Express.js, and MongoDB for a real business client.
- Implemented secure authentication, property listing and booking systems, user profile management, image uploads, and RESTful APIs.
- Designed a responsive mobile-first UI with location-based search and dynamic content handling for seamless cross-device experience.

Real-Time Chatting App (Chatify)

github.com/Adarshrajput0/Chatify | Oct 2025 – Dec 2026

- Built a full-stack real-time chat application using React, Node.js, Express.js, Socket.io, Arcjet, and bcrypt.js.
- Implemented secure user authentication, one-to-one instant messaging, live message synchronisation, and online status tracking.
- Designed a responsive interface with optimised backend performance for seamless real-time communication.

Campus Micro Job Platform

github.com/Adarshrajput0/Campus-job | Jan 2026 – Mar 2026

- Developed a full-stack campus micro-job platform using React, Node.js, Express.js, and MongoDB to connect students with short-term employment opportunities.
- Implemented secure authentication, profile management, job posting, application workflows, and RESTful APIs for managing users and job data.
- Designed a responsive UI with optimised job matching and real-time updates to enhance accessibility and overall efficiency.

ACHIEVEMENTS

Creator & Lead Developer – Campus Micro Job

github.com/Adarshrajput0/Campus-job

- Developed and designed a Campus Micro Job platform to connect students with short-term campus-based work opportunities efficiently.
- Built backend functionalities for authentication, data handling, and database management using modern web development technologies.

Founder & Sole Developer – Rental Booking Platform

airbnb-powi.onrender.com

- Developed a full-stack property rental and booking platform inspired by Airbnb for a real business client, enabling seamless property listing and booking management.
- Designed and implemented responsive frontend interfaces and scalable backend architecture for an optimised user experience.
- Independently designed and built the platform to solve real business problems, helping a client grow their rental business by making property listing and booking easier.

CERTIFICATIONS

- AWS Academy Cloud Foundations
Amazon Web Services | August 2025
- TCS-iON Career Edge – Young Professional
TCS-iON
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
Oracle | 2025
- Artificial Intelligence Fundamentals
- Data Visualisation: Empowering Business with Effective Insights
- Introduction to Cyber Security
- NPTEL Online Certification in Computer Networks and Internet Protocol
IIT Kharagpur (via NPTEL)

SKILLS

Frontend	React, JavaScript, TypeScript, HTML & CSS, Tailwind CSS, Material-UI
Backend	Node.js, Express.js, Django, RESTful APIs & Authentication, Socket.io, MongoDB, MySQL
Programming Languages	Java, Python, C++
Others	Git & GitHub, AWS Cloud Foundations, Oracle Cloud AI, Data Structures & Algorithms, OOP, OS, CN, DBMS
Soft Skills	Communication, Critical Thinking, Team Collaboration, Time Management
